Fiscal Year 2014-15 Accountability Report

SUBMISSION FORM

AGENCY MISSION

The Court's mission is to provide a neutral forum for fair, prompt and objective hearings for any person(s) affected by an action or proposed action of certain State agencies or departments. The purpose of an administrative court such as the ALC, is to separate the adjudicatory proceedings from the investigative and policy-making functions of the agency. Prior to the creation of the Court, citizens who had a dispute with a state agency and wanted to challenge any action related to the dispute had to appear before hearing officers employed or contracted by that particular agency. The creation of this Court provided a forum separate from the agency whose decision was in dispute. The Court places a very high value on its ability to be fair and neutral to all of the litigants that appear before the Court and on continuing efforts to improve its results.

Please identify your agency's preferred contacts for this year's accountability report.

	<u>Name</u>	<u>Phone</u>	<u>Email</u>
PRIMARY CONTACT:	Jana Shealy	734-6411	jshealy@scalc.net

AGENCY NAME:	South (Carolina Administrative La	w Court	
AGENCY CODE:	C05	Section:	58	

AGENCY'S DISCUSSION AND ANALYSIS

The Administrative Law Court is in the Executive Branch and since its inception has evolved from an agency with 6 Administrative Law Judges (ALJ) and staff to an agency and court of record with an additional division, the Office of Motor Vehicle Hearings (OMVH), housing five (5) hearings officers and staff. The Court's jurisdiction has increased at a steady pace and the caseload has increased almost twelve fold since 1994. (In 1994, 720 cases were filed and in FY 14-15, 8,411 cases were filed). The Court now hears cases involving all state agencies except those arising under the Consolidated Procurement Code, the Public Service Commission and the Workers' Compensation Commission. (See Age of Disposed Cases below for specific case types filed with the Court). Also, during this time, appeals of the Court's decisions have moved from either the board or commission of the agency or the circuit court, directly to the appellate courts of the State. The Court has successfully managed this additional workload even during difficult budget cycles and staff vacancies due to reductions in appropriations. During the past several budget cycles, however, the Court has received new funding and revenue to offset many of those previous cuts.

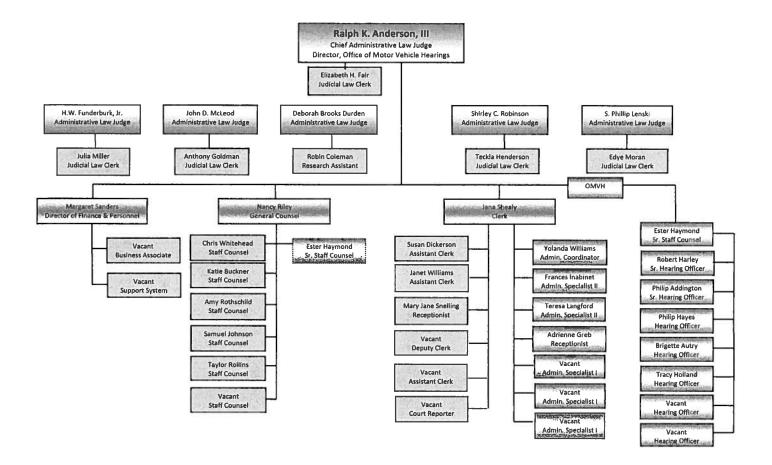

The Court was created to provide a neutral forum for fair, prompt and objective hearings related to our jurisdiction. Though the ALC provides an excellent forum for the review of administrative law matters, there is always room for improvement, especially related to the time frames for disposing its cases (See Graph Charts regarding percentage of disposed cases). With additional funding, technology upgrades and evaluation of performance measures, the ALC is in a good position to improve these timeframes over the next several years.

The Chief Judge is statutorily responsible for the assignment of cases filed with the Court to an ALJ and is the Director of the OMVH where the cases are automatically assigned to a hearing officer based on specific geographic regions. The Chief Judge is also responsible for the administration of the Court and OMVH, including budgetary matters and supervision of the support staff. The other ALJs are individually responsible for efficiently disposing of cases assigned to them and for the supervision of his or her administrative assistant/law clerk. Although the Chief Judge is the administrator of the Court, each ALJ has complete autonomy over the cases he or she is assigned to adjudicate. Therefore, each ALJ and his or her law clerk are responsible for ensuring the fair and prompt disposition of the cases assigned to their office. There is no required uniformity among the judges' offices nor are there requirements that mandate compliance with the timeframes or workflows. During the past fiscal year, the Court completed the upgrade of its case management system (CMS) and began using the new system in July 2015. Adherence to the workflows and processes for the cases through use of the upgraded CMS should improve the Court's performance measures concerning the timely disposition of cases. However, the Court's current structure, with six autonomous judges' offices, does not lend itself to centralized oversight of case disposition processes. In order for the General Assembly and the public to continue to hold the ALC accountable, legislative changes may be necessary to provide such oversight.

The Court's future goals are to develop an electronic filing system and to reduce paper files retained by the Court. The system will allow litigants faster access to the Court's information and provide electronic access by the public. In addition, the system and reduction of paper filings will increase the Court's efficiency in processing and disposing of cases. During this time, the Court will also be developing the policies necessary to comply with the Division of Information Security's July 1, 2016 deadline regarding statewide policies standards. The Court received funding this fiscal year to fill a vacant IT position which was crucial for the Court to be able to move forward with these initiatives. This will be a multi-step process involving review of our data (classification), retention policies, electronic records and destruction of records, as well as budget and procurement issues related to electronic filing. The Court is continuing efforts to meet its strategic goal to develop technology improvements to increase the Court's efficiency and the public's access to information.
